

Control set Smart Agriculture 4.0

Name of College Nakhon Pathom Polytechnic College

Type of English Presentation Innovation and Invention Based on Research Methodology Contest

<p>Abstract :</p>	<p>Smart Farm is different to conventional farms. Is the use of resources and meet the needs of the plant. Reduce resource depletion Providing the right amount of fertilizer to soil degradation and does not cause an overflow of minerals. Research in this research and development. Aims to control agricultural efficiency and intelligent control unit 4.0 4.0 Agricultural genius, which the study found. Agricultural Intelligent Control 4.0 is an aim and effective as defined in the scope of research.</p>
<p>Features and Benefits :</p>	<p>First, It has an intelligent agricultural control unit of 4.0. Next, the efficiency of the use of the Intelligent Agricultural Control Unit 4.0 is not less than 80%. Then, user Satisfaction control, intelligent Agriculture 4.0 not less than good level.</p> <p>Finally, can be create an intelligent agriculture Control unit, 4.0, temperature, humidity and lighting control via smartphone and display to reduce the time of execution and access to device notifications via the line application.</p>
