

The invention contest of the new generation

Red cotton tree flowers dried dietary instant powder

Name of College UTTARADIT VOCATIONAL COLLEGE

Type of English Presentation Innovation and Invention Based on Research Methodology Contest

Abstract :	The aims of this study are: 1) To develop the supplementary food product from the red cotton tree flowers, 2) To trial consume the supplementary food from the red cotton tree flowers, and 3) To investigate the consumer satisfaction of the supplementary food product from the red cotton tree flowers in various ways.
Features and Benefits :	<p>1. To develop the supplementary food product from the red cotton tree flowers,</p> <p>2) To trial consume the supplementary food from the red cotton tree flowers, and</p> <p>3) To investigate the consumer satisfaction of the supplementary food product from the red cotton tree flowers in various ways.</p> <p>Prevent to liver from chemicals. Anti Inflammatory effect of swelling. Very high nutritive value. High calcium content at to 429 mg. per 100 g.</p>
